

WORKFLOW / SOFTWARE reference guide

The Workflow/Software Reference Guide is the last of our series for 2006. Here is a sample of some of the software products on the market today, although due to the size of the category, it is not complete. We hope this gives you a place to start on your quest to find the right solution to fit your organization, whether you need workflow management help, preflight tools, graphics aids, color proofing and management, or something else altogether. We hope this provides you with useful and informative material that you can turn to again and again.

Company Info	Product Name	Type of Software	Platform				Hardware Dependent	Modular
			Windows/PC	Mac	Linux	Unix		
Agfa Graphics (800) 540-2432 x5155 www.agfa.com	ApogeeX	Other	•				•	•
	ApogeeX Commercial 8-up	Other	•				•	•
	ApogeeX Light	Other	•				•	•
